

Dr. Fisher,

I just wanted to tell you personally how much I have enjoyed your class this semester & how much I feel I have learned. The amount of class discussion & interaction helps me learn so much, & I wanted to thank you for all you do to foster that safe classroom environment. Also, thank you for being so understanding about my allergies & absences. I truly hope

I can have you as a professor another
semester! I cannot wait to apply all I've
learned in the real world!
